MUIR LODGE

In response to the Circular Letter of July, there was contributed in cash, $70.00; in promise by October, $65.00

As but $38.00 was offered toward a locker building, the minimum cost of which would be $250.00, the Committee deferred action on this. A few extra lockers are being built.

Some of the improvements accomplished are: Leveling up-stream from Lodge for tables and beyond for women's sleeping quarters. Latter space is now enclosed with boarding, and vines will be planted in the Fall. In this space is built a permanent dressing room and shelter.

A pergola of oak logs has been erected near the kitchen. A cemented wing dam, 60 feet in length secures our sites from flood damage.

Sanitary conditions have been cared for.

A table with benches has been placed across the stream, also a hammock hung there.

A Committee member has spent six weeks at the Lodge, in charge of the improvements.

This still leaves the Committee in debt. Several have said: "Call on me if more is needed," and we certainly appreciate the generous spirit of the members.

Our data is not complete for the Club Directory. Send in your address and phone number.

Come with your friends to Muir Lodge for the Oct. 7-8 trip.

MUIR LODGE ETIQUETTE

There have been complaints of late that the lodge is being left in untidy condition after the week-ends. It should be remembered that all work connected with its upkeep is entirely voluntary and all members taking advantage of its privileges are expected to devote fifteen or twenty minutes of their time towards cleaning up and leaving things in presentable condition. If everyone will do this and observe the following it will be to our mutual advantage and be a credit to the club:

1. The main lodge must be swept and dusted and bedding removed from the window seats by 10 a. m. each morning. It shall be the duty of those using the lodge for sleeping quarters to see that this is done. Cushions must not be removed from the lockers and no person shall use more than one cushion for sleeping purposes.

2. Parties using the kitchen must keep it neat and orderly—do not leave scraps of food around as they attract ants and flies.

Burn all garbage possible and put balance in garbage can.

Before leaving see that garbage can and tin can box are emptied on hillside back of main lodge and men's annex. All dishes must be washed and put away **clean**—do not leave **any** food remnants in the pantry or kitchen.
